Windsor High School	342	83%
Winooski High School	212	65%
Woodstock Sr. UHSD #4	493	88%
State of Vermont	31,305	81%

*The average enrollment is not part of the estimated graduation rate calculation (see definition below). It is provided to give the reader a sense of the size of the school.

**Due to significant fluctuations in data for high schools with small graduating classes, schools with fewer than 25 graduates (average of 1999 and 2000) are not shown in this report.

The Estimated High School Graduation Rate is calculated by dividing the total number of 1999 and 2000 graduates by the total number of 1999 and 2000 graduates plus the cumulative number of dropouts (over four years) for the Classes of 1999 and 2000 [(99Grad+00Grad)/(99Grad+00Grad+99Drop+00Drop)]. This rate differs from other graduation and dropout rates published annually by the Department of Education as it attempts to estimate the graduation rate for a single class of students. The annual graduation and dropout rates are "snapshot" reports (defined as "event" rates) based on one year of 'School Register' information. (Both of these reports are available at <http://www.state.vt.us/educ/new/html/maindata.html>.)

The Estimated High School Graduate Rate cannot account for students who may dropout and re-enroll in either the same school or another school the following year. The rate also includes both graduates and dropouts who may not have been part of the original cohort that started in the school in ninth grade. Given these and other limitations, high schools are encouraged to use their local student tracking systems to further research their cohort graduation rates.
